MaxiDry®

- Ultra-lightweight, synthetic nitrile coated glove.
- General purpose assembly requiring precision handling.
- Superior grip in oily and wet environments.
- Excellent dexterity due to strategic placement of coating.
- Locking cuff prevents the glove from slipping; elasticated wrist support provides snug fit.

ATG® Technology Platforms

- **Airtech**: 360° breathability
  - Heat dissipates naturally
  - Cool hands are happier, safer and more productive

- **Ergotech**: 25% thinner than most foam nitrile gloves on the market
  - Twice the durability compared to other polyurethane and foamed nitrile gloves on the market
  - Form, fit and feel mimics the "hand at rest"

- **Duratech**: Consistent liner penetration

- **CUTtech**: Innovative fibres
  - Reinforcement between the thumb and forefinger

- **GRIPtech**: Optimized grip
  - Reduced hand fatigue
  - Dexterity and flexibility

- **LIQUtech**: Liquid repellence
  - High grade chemical resistance available
  - Safeguard your hands

HandCare® technology can be seen in the MaxiFlex® Active™ range. This process cools, refreshes and vitalizes the hand with Vitamin E and Aloe Vera.

The Sanitized® (triclosan free) hygiene function acts like a built-in deodorant that keeps clothing fresh longer and leaves you feeling safe and protected.

All of our gloves are certified to Oeko-Tex® 100 which is a recognized international standard guaranteeing that the glove is 'skin friendly'.

All components and ingredients used in the manufacturing and construction of ATG® products have been assessed and comply with the R.E.A.C.H. European Directive, EC # 1907/2006 (Registration, Evaluation, Authorisation and Restriction of Chemicals).

Get informed in a few minutes by watching our short 3D movies that explain the features and benefits of specific product families.
