

HARDCAP AEROLITE™ BUMP CAP

PRODUCT INFORMATION

LARGE OPEN WEAVED PANELS MATCH UP WITH HOLES IN PROTECTIVE LINER FOR A LIGHTWEIGHT & COOL FIT

THE LIGHTEST

FULL SHELL BUMP CAP ON THE MARKET

- Provides all around protection against incidental bumps and scrapes, weighing less than 5 oz.
- Breathable design keeps workers cool and comfortable
- Antimicrobial Polygiene® coated fabric stays odor free

PRODUCT DESCRIPTION

JSP® HARDCAP AEROLITE™

An estimated 33% of work-related head injuries are a result of impacts while the worker was not wearing any form of head protection*. Think of confined work spaces and areas with low vertical clearances, which can occur in the presence of overhanging pipes or shelving. HardCap Aerolite™ is the evolution of the popular JSP® HardCap A1+™, providing bump protection and meeting the EN812 standard for impact resistance. Weighing less than 5 oz., Aerolite™ is the best performing lightweight bump cap on the market.

APPLICATIONS

USE AS HEAD PROTECTION IN WORK SPACES WHERE HARD HATS ARE NOT MANDATED.

- Warehouse
- Assembly
- Plumbing
- HVAC
- Maintenance & Repair
- Landscaping
- Installation Work
- Package Handling
- Automotive
- Aviation/Airlines

COMFORT PADS COATED WITH POLYGIENE® FOR INCREASED HYGIENE

PERFORMANCE

REDEFINING HEAD PROTECTION

LIGHTWEIGHT

Less than 5 oz. total weight, features lightweight EPP (Expanded Polypropylene) impact liner combined with a tough HDPE shell - all in a baseball-style outer cap.

VENTILATION

Holes in the liner match up with mesh panels on the cap making it one of the coolest bump caps on the market.

ANTIMICROBIAL

Integrated sweatband and comfort liner coated with Polygiene®, an antimicrobial treatment that prevents odor-causing bacteria.

SWEATBAND

Quick drying integrated sweatband features moisture wicking properties to help keep you cool and comfortable.

REFLECTIVE TRIM

Large reflective trim patterns on each side add extra visibility and therefore safety in all working environments.

WATER REPELLENT

Water repellent finish on outer cap allows water to bead up and roll off instead of penetrating and staining.
