### PUMA® Safety

Sierra Nevada St CTX MID O2 WR CI HI HRO SRC Cold Isolation, COA.TEX-Membrane, Heat Isolation, Heat Resistant, Slip Resistant, Water Resistant, Safety Shoes

- **RUBBER OUTSOLE** - It is obvious that the heavy duty pattern of this hard-wearing, up to 300°C heat resistant HRO rubber outsole has been designed for optimum safety and performance, even on loose grounds.
- **PU MIDSOLE** - The directly injected lightweight PU midsole provides shock absorption across the whole foot.
- **SCUFF CAP** - Extra high scuff cap for wearers who kneel a lot during their work.
- **ZIPPER** - The YKK zipper at the side enables an easy putting on and taking off. The closed dust flap behind the zipper stops the penetration of dirt and prevents from unpleasant pressure points.
- **EVERCUSHION® BA+** - This anatomically shaped, moisture regulating footbed has a non-slippery surface. Two layers of foamed polyurethane in different densities guarantee an active cushioning. The heel and ball elevations as well as the support of the longitudinal arch improve the foot's hold. Furthermore they ensure a natural position of the foot, a relief of pressure and muscle stimulation during walking.

### Performance Data

ASTM F2413 Requirement --

### Care Instructions

Hand Wash

# SPECIFICATION SHEET

STYLE: 630880-400
